3 Display icons

Temperature and time
(manual switching)

Wi-Fi

Main reading

Time or temperature. Button 3 selects which one is shown large.

Bottom row

Temperature, humidity (%) and light level (lux).

Right

Date and day of the week.

Wi-Fi

Flashes while the device is in network pairing mode.

4 Connect to WiFi

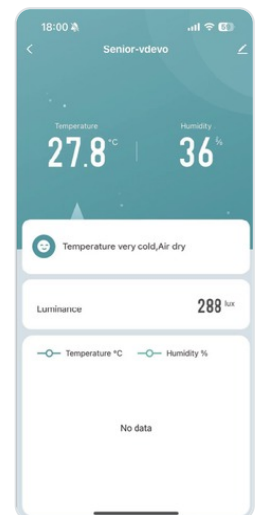

- 1 Connect your phone to WiFi. Keep the device within range of the network.
- 2 Scan the QR code or search for **GEYER Smart** in the App Store or Google Play. Choose **"Register"** for a new account or **"Log in"** if you already have one.
- 3 Open the cover on the back and insert the batteries. Hold **button 4** for 5 seconds until the Wi-Fi icon flashes.
- 4 In the app, tap **"Add Device"** and wait while it searches for the device. Tap **"Add"**.
- 5 Select your 2.4 GHz WiFi network and complete the setup.
- 6 The device appears in the **"My Home"** list.

GEYER Smart

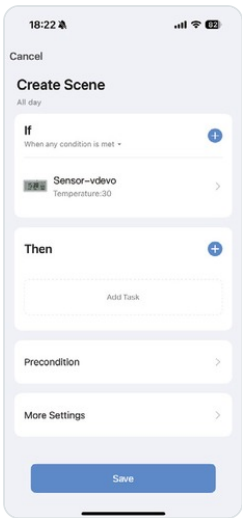

The app finds the device - tap **"Add"**

The device readings in the app

5 Smart scenes

Creating a scene
(Create Scene) in the
app

Link the thermometer with other GEYER smart devices. Follow the steps in the app to create scenes, e.g. to switch on a heater or an air conditioner when the temperature drops below a limit.

6 Technical specifications

Model	GS-WFTH	Connectivity	WiFi 2.4 GHz
Power supply	2 × AAA (not included)	Sensors	Temperature, humidity, light
Temperature range	−20 ... +70 °C	Display	High-definition LCD
Humidity range	0 ... 99% RH	Dimensions	110 × 55 × 17 mm
Illuminance range	0.01 ... 157,000 lux	Weight	Approx. 75 g

i Good to know

- Batteries (2 × AAA) are not included.
- High-precision temperature, humidity and light sensors.
- The device stands on its bracket or hangs on the wall from the bracket hole.
