

SMART IRRIGATION CONTROLLER · WIFI 2.4 GHZ

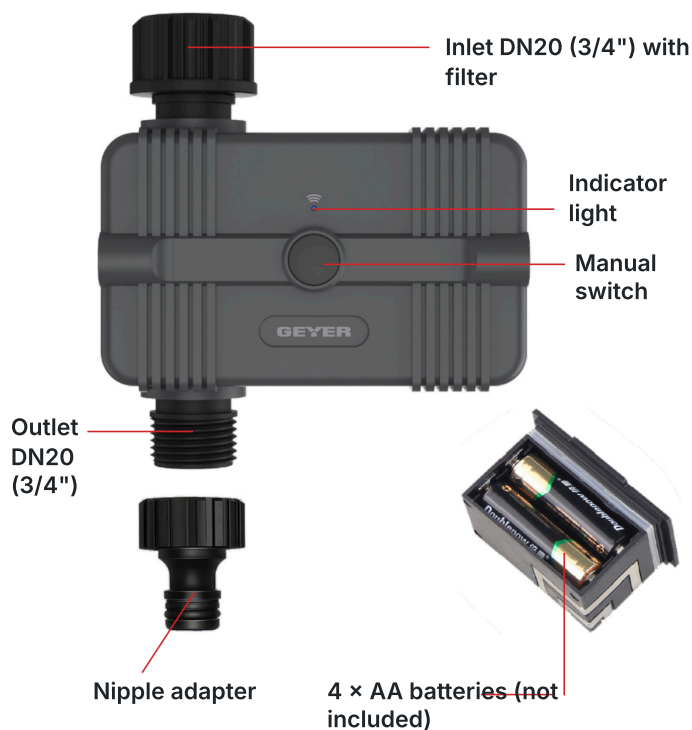

Water your garden from wherever you are

GEYER's smart irrigation controller turns a simple garden tap into a smart water source. It waters automatically with the schedules you set in the GEYER Smart app, even when you are away on holiday.

- Schedules & cycle watering
- Weather delay
- 4 × AA · ~1 year

1 Get to know the controller

Fittings

- Inlet: DN20 (3/4") with filter
- Outlet: DN20 (3/4")
- Nipple adapter included

Manual switch

- Short press: water on / off
- Long press 5 s: connect to the app

2 Download the app

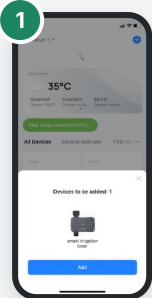

- Scan the QR code or search for **GEYER Smart** on the App Store or Google Play.
- Register with your phone number or email and log in.

3 Add the controller to the app

Before you start, make sure your phone has internet and Bluetooth is on.

Option 1

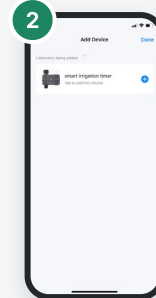

Hold the switch 5 s (blue LED flashes fast) and tap "Add"

Option 2

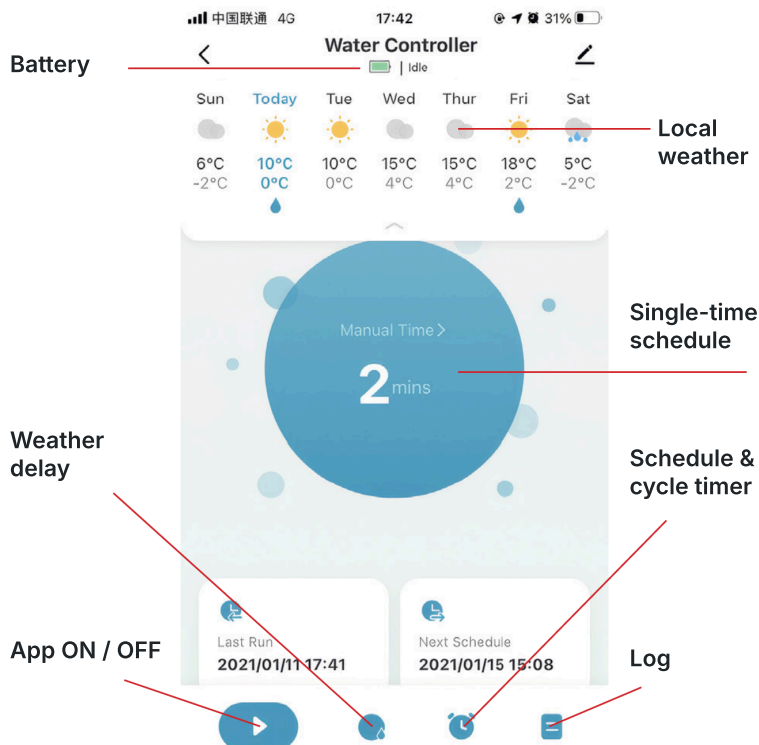

"+" → "WiFi" in Industry & Agriculture

The app finds the controller. Follow the steps

4 App control

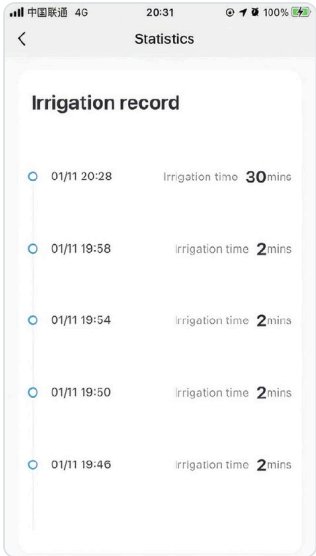

The controller's home screen in the app.

Tip: Commands run with a delay of about 0.5–1 second. Please do not press the button repeatedly.

5 Log

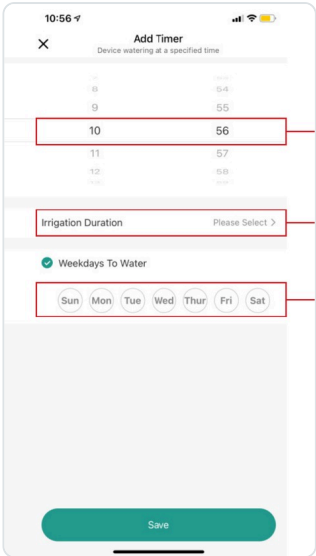

The start and end time of every watering is recorded.

Tap the **log** icon on the home screen to see the watering records.

6 Schedule

Set a start time and duration and watering runs automatically.

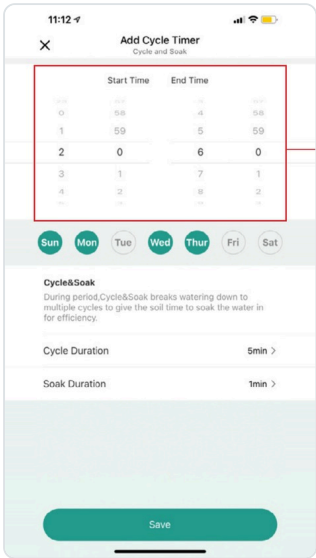

Start time

Watering duration

Days of the week

7 Cycle timer

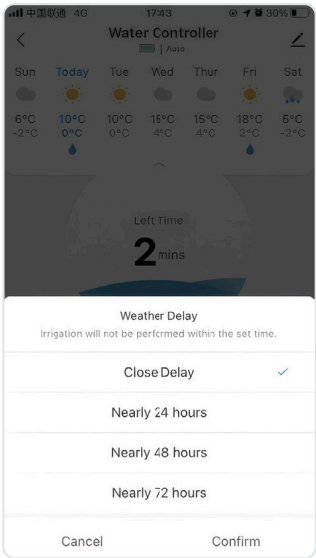

Alternate watering and pauses so the water soaks in fully without waste.

In this example, from 2:00 to 6:00 watering runs for 5 minutes and stops for 1 minute, in cycles, every Monday, Wednesday, Thursday and Saturday.

8 Weather delay

When it rains, postpone the watering schedule by 24, 48 or 72 hours.

Choose 24 / 48 / 72 hours

Tip: The schedule runs again once you turn the delay off.

9 Specifications

Model	GS-WT03	Working pressure	100–800 kPa
Power supply	4 × AA (not included)	Flow	500–1700 L/h
Battery life	About 1 year	Working temperature	0 ... +60 °C
Communication	WiFi 2.4 GHz	Inlet / outlet	DN20 (3/4") / DN20 (3/4")
IP rating	IP55	Included	Nipple adapter

! Warning

- ! In freezing temperatures, remove the controller from the tap and store it indoors to avoid frost damage.
- ! Clean the filter regularly and replace it if worn, to prolong the life of the controller.
- ! Do not place it in an underground valve box or anywhere the WiFi signal is obstructed.

? FAQ

Is there manual operation?

Yes. The button on the controller turns the water on and off manually.

Will it water if I am away and out of WiFi range?

The controller only works within WiFi range. Place it close to your router so you can control it from anywhere.

Batteries: included, how long, how to replace?

Not included, you need 4 × AA. They usually last up to 12 months. Pull out the drawer at the back and insert 4 new AA batteries.
