

GEYER SMART SOLUTIONS

Smart Wi-Fi Water Valve

GS-V02 · DN15 / DN20 / DN25

Control the water supply from your phone, with opening adjustment, schedules and automations.

IP65 · 1.0 MPa · Wi-Fi 2.4 GHz

**REMOTE CONTROL**

Open and close the water supply through GEYER Smart.

**OPENING ADJUSTMENT**

Set the valve position from 0% to 100% in 10% steps.

**SCHEDULES & COUNTDOWN**

Up to 30 schedules per day and countdown function.

**LEAK AUTOMATION**

Works with a compatible sensor for automatic shut-off.

KEY TECHNICAL DATA

Variants	DN15 · DN20 · DN25
Connections	1/2" · 3/4" · 1" BSP
Power supply	DC 5 V / 2 A · adapter included
Maximum pressure	1.0 MPa (10 bar)
Protection	IP65
Materials	AISI 304 · engineering plastics
Temperature	-30 °C to +60 °C
Warranty	2 years

CONNECTED ECOSYSTEM**GEYER Smart**

Control · Schedules · Automations

COMPATIBILITY

Amazon Alexa

Tuya Smart

Smart Life

APP AVAILABLE ON

Smart water control for every installation.

One platform, three valve sizes and control from wherever you are.

HOME WATER SUPPLY

Remote shut-off and scheduled control of the main water supply.

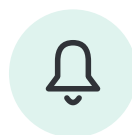

GARDEN IRRIGATION

Control an irrigation line with schedules and adjustable opening.

HOLIDAY HOME

Manage the water supply remotely while the property is unoccupied.

LEAK PROTECTION

Automatic shut-off with a compatible smart leak sensor.

FROM SIZE SELECTION TO SMART CONTROL

1 SELECT
DN15 · DN20 · DN25

2 INSTALL
Correct flow direction

3 PAIR
GEYER Smart · 2.4 GHz

4 AUTOMATE
Schedules · leak

IMPORTANT APPLICATION REQUIREMENTS

- Select the correct size and compatible BSP thread.
- Installation by a qualified installer with the water supply isolated.
- IP65 does not permit immersion of the device or adapter.
- Remote control requires power, Wi-Fi and Internet.

GEYER Smart

Water control on one screen

Opening, position percentage, schedules and protective automations.
