Smart Life

APP AVAILABLE ON

Practical watering for different outdoor spaces.

Control and schedule irrigation through one simple, connected device.

HOME GARDEN

Schedule lawn and ornamental-plant watering around your routine.

VEGETABLE GARDEN

Supply compatible drip lines with weekly or cyclic schedules.

HOLIDAY HOME

Manage watering remotely while the property remains unoccupied.

PATIO & PLANTERS

Use scheduled watering for compatible hoses and small outdoor spaces.

FROM CONNECTION TO SMART WATERING

1

BATTERIES

4 x matching AA

2

CONNECTION

DN20 - correct sealing

3

PAIRING

GEYER Smart - 2.4 GHz

4

SCHEDULE

Time - duration - days

IMPORTANT APPLICATION REQUIREMENTS

- Use four matching batteries and do not mix different types.
- IP55 does not permit immersion and the battery compartment must close correctly.
- Remove the device in freezing conditions and store it indoors.
- Weather Delay is selected manually and does not detect rain.
